

M2

Bookletmaker

The Standard M2 Bookletmaker is a compact, manually fed bookletmaker that is perfect for short-run environments like churches, schools, on-demand print shops, and in-plants.

- *Easy to operate*
- *Reliable performance*
- *Professional results*

M2

The M2 Bookletmaker from Standard is the ideal on-demand, short-run bookletmaker for today's schools, churches, clubs and organizations, corporate sales and marketing departments, in-plant print facilities, copy centers and quick printers — virtually any operation that requires short-run, professionally finished documents. In fact, the M2's simple desk top design, featuring fast set-up and change-over — less than 60 seconds, gives the M2 superior short run capabilities. With the M2, even a run of one booklet is economical.

The appearance of almost every document can be enhanced when produced in a booklet format. The M2 can create up to a 60-page booklet while efficiently producing them at speeds of up to 800 booklets per hour. Perfect for producing Sunday bulletins, cookbooks, manuals, catalogs, pamphlets, proposals, book self-publishing and more!

Advances in personal computers, duplicating, copying and laser printing have brought new levels of quality into the hands of many individuals, small businesses and organizations. The M2 provides the means to provide a quality finish to those documents. Inside and out, the results will be great!

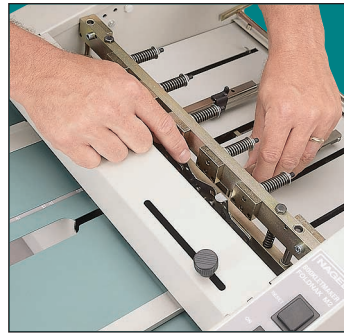

Easy Operation

The M2 control panel is simple to understand and operate. Stapling and folding a document exactly on center with a single push of a button is incredibly easy, every time.

Precision Engineering

The superior design of the M2 lets the operator produce big machine results in a desktop design. The precision design of the heavy-duty stapler heads will provide many years of trouble-free bookletmaking.

Local Dealer:

Unique Staple Head Positioning

A unique lever-lock system allows for quick relocation of the staple heads for various booklet sizes, and requires no tools.

Easy Two-Step Operation

To finish any document, the operator simply inserts the stock and presses a button — it's that easy! The M2 produces booklets with standard or loop staples, and can fold pamphlets without stapling.

The Standard Staple

Standard staples are made of high quality refined iron or steel. They are chisel-pointed to cleanly and accurately penetrate a thick set of paper. Specially formulated adhesive allows for staple separation without jamming.
